Unless a Tax Event or a Regulatory Event occurs, Members Equity Bank will only have a right to Redeem the Capital Notes on or after the fifth anniversary of the date of issue of the Capital Notes. Members Equity Bank may also elect to Redeem all or some Capital Notes following the occurrence of a Tax Event or a Regulatory Event. The Capital Notes may not be Redeemed on the occurrence of a Non-Viability Trigger Event. Members Equity Bank may only Redeem the Capital Notes if it has received APRA's prior written approval (which may or may not be given). APRA must be satisfied that, before or concurrently with Redemption: a) the Capital Notes will be replaced with a capital instrument which is of the same or better quality (for the purposes of the Prudential Standards) than the Capital Notes, and the replacement must be done under conditions that are sustainable for Members Equity Bank's income capacity; or b) having regard to the capital position of Members Equity Bank and the ME Group, Members Equity Bank does not have to replace the Capital Notes.

If a Non-Viability Trigger Event occurs, Members Equity Bank must convert or write-off some or all Relevant Securities (and in the case of Capital Notes, must write-off some or all Capital Notes). Where the Capital Notes are Written-off, all rights of Holders will be terminated with effect on and from the date of the Non-Viability Trigger Event.

Attachment F

As per APRA reporting standard APS 210, APRA requires ADIs to maintain a minimum 100% Liquidity Coverage Ratio (LCR). The LCR requires banks to hold sufficient High Quality Liquid Assets (HQLA) to meet net cash outflows over a 30-day period, under a regulator-defined stress scenario.

ME's LCR for the quarter ending 30 June 2018 is presented in the following table (Table 20: LCR disclosure template), using the disclosure template specfied in Attachment F of APS 210 and is based on a simple average of daily LCR calculations for the quarter (i.e. 91 data points for the quarter ended 30 June 2018).

The Risk Appetite Framework (RAS) is approved by the Board and managed via the relevant management committee. The Asset and Liability Committee (ALCO) is tasked with the management and oversight of the Bank's financial risk exposures within the Board-set risk appetite. This includes capital, liquidity and funding, and interest rate risk in the banking book.

Treasury manages the Bank's liquidity and funding positions in accordance with the Board approved RAS and policy delegations. LCR is calculated daily by Treasury for liquidity management purposes and to ensure regulatory and internal buffers are maintained. The Market and Liquidity Risk department provide independent oversight of Treasury and calculate and report the Bank's LCR on a daily basis.

NCO volatility is the primary driver of fluctuations in LCR. NCO is managed by Treasury with the Bank holding sufficient liquidity buffers to absorb potential unexpected volatility.

ME's mix of High Quality Liquid Assets (HQLA), include cash, deposits with central banks, Australian Semi Government and Commonwealth Government securities. Liquid assets also include repo-eligible securities with the Reserve Bank of Australia held as Committed Liquidity Facility (CLF) collateral. ME's CLF is fully collateralised at all times.

The entities listed above are special purpose vehicles (SPVs) where ME Bank securitises its housing loans. ME Bank holds the income units in the SPVs, which entitles ME Bank to receive excess income, if any, generated by the securitised assets.

As ME Bank is exposed to the majority of the residual risk associated with the entities above, their underlying assets, liabilities, revenues and expenses are reported in ME Bank's consolidated financial statements.
