Links to third parties

This app may contain links to websites controlled or offered by third parties (non-affiliates of ME Bank). ME Bank is not responsible for any information, materials, products or services posted or offered at any of these third-party websites linked to this app.

By creating a link to such third-party website, ME Bank does not endorse or recommend any products or services offered or information or material contained at that website. Using Fingerprint, Face or Iris recognition technology

If you are using a smartphone that uses fingerprint, facial recognition, or similar biometric identifiers (“Biometric Identifier”) in order to authenticate you, you can enable this technology for our app. Enabling this technology for our app means that you can access the app using your

biometric features instead of using your PIN or secret answers as an additional measure. We may still prompt you to enter your PIN or secret answers as an additional security measure.

You must not enable this technology using Biometric Identifiers to access our app if you have someone else's Biometric Identifiers stored on your device.

You must disable biometric recognition technology for use in connection with our app prior to allowing any other person to store their Biometric Identifier on your device.

If you:

- let any other person's Biometric Identifier be registered on your device on which you have installed our app and enabled the ability to authenticate using a Biometric Identifier;
- share your device passcode with any other person for your device on which you have installed our app and enabled the ability to authenticate in it using a Biometric Identifier; or
- install our app and enable the ability to authenticate within it using Biometric Identifiers on a device on which another person has registered, or has the ability to register without your consent, their Biometric Identifier to access the device or for which the person knows the device passcode, you are taken to have authorised that person to transact on your account.

This means that any transaction initiated by that person using the device passcode or Biometric Identifier will be taken to be authorised by you, you will be responsible and liable for such transactions, and the clauses in the ME Go Deposit Account Terms and Conditions (with respect to deposit accounts) or the ME Go Electronic Banking Terms and Conditions (with respect to home loan accounts) which deal with unauthorised transactions will not apply.

You understand and acknowledge that this can result in significant loss or liability to you.

Despite us allowing you to enable this biometric authentication technology for use in connection with our app, we are not responsible for any malfunction of that technology, or if the hardware provider of your device makes changes to the technology that impacts the way you access our app.

You will still be able to access our app using your PIN or access code and you must continue to protect your PIN or access code as outlined below under 'Securing your account'.

Securing your account

You must not

- use a device that is not your own and is not secured to download and access the app.
- voluntarily provide your PIN, access code, or security information to anyone. This includes family members, accountants, financial planners or anyone else you consider should be authorised to access your account details.
- select a PIN or access code that is easy for another person to guess, observe or deduce. For example, your PIN or access code must not be repeated, ascending or descending numbers or representation of your date of birth or recognisable part of your name.
- provide security questions and answers that other people will be able to know. It is important that only you are able to provide this information; or
- write down, record or store your PIN, access code, or any of your security questions and answers anywhere including on your device unless you have taken reasonable steps to ensure the security of that information.

Keeping your mobile device secure

ME Bank requires you to take appropriate measures to appropriately secure your mobile device and any information stored on it, including

- Setting your mobile device to lock after a short period of non-use.
- Using a strong, secret PIN/passcode and/or fingerprint, facial or iris detection.
- Signing out of websites when you have finished browsing; and
- Using Apple's Find My or other device managers for Android, to help locate your phone and wipe the data where you suspect your device may be lost or stolen.

Use of Apps

Up to date contact details

You need to ensure we have your most current contact information so we can contact you if we notice unusual activity. If you change your number or lose your phone, let us know.

Notifications and using your location data

We may send notifications via push notification service, other reminder mechanisms or via SMS. Push notifications require you to enable this on your mobile phone.

If you provide us with permission, to use your device's location information, we will log this location information for security purposes and to enable other functionality within our app, where such location information is required (e.g., to provide you with information on offers of nearby partners).

We may also decide to suspend or terminate the provision of this app in our discretion by giving you at least 30 days' written notice.

If we exercise our rights under this clause, we will be under no liability to you.

Changes to these Terms of Use

We may change these Terms of Use at any time.

If a change is necessary to restore or maintain the security of a system or related accounts or to prevent fraud we may make the change immediately without advance notice to you and notify you as soon as reasonably possible.

Otherwise, we will give you 30 days' notice of changes that are unfavourable to you and give you notice of other changes before the change takes effect.

We may notify you of changes by electronic notice to you via your device or the App Store or in any other manner allowed by law. We may require you to confirm your acceptance to changes in order to continue to use the app.
